Projects

2025 Sep. - 2025 Sep.	1. Attendance Checking System (individual project) <i>React, Django, DeepFace (Facenet model), Gunicorn and Nginx, Cloudflare</i> - Developed the employee attendance checking platform by using facial data and location data from employee - Individual project (full-stack development) - Used Facenet model (facial recognition) & Geopy (location) to check the attendance - Deployed on the Linux vps on Database Mart and used the Cloudflare DNS
2025 Jan. - 2025 Aug.	2. Koalytics - Usability Testing Platform Using Facial Emotion Data <i>(as Senior Project) Django, React, Mediapipe, DeepFace, OpenCV</i> - Developed the remote usability testing platform, which analyze and record users' emotions by using Mediapipe FaceMesh and DeepFace for emotions recognition - Contributed as a full-stack developer, collaborating with team members to integrate the Django backend and React frontend - Implemented the critical thinking and problem solving skills to integrate the computer vision libraries and analysis of emotions
2024 Aug. - 2024 Dec.	3. MFU Hospital Website <i>Vue.js, Strapi, Axios, Postman</i> - Developed using Vue.js as frontend and Strapi (headless CMS) as backend to manage and store data - Contributed as a backend developer and took responsibility for the integrating API endpoints between Strapi and frontend
2024 Jan. - 2024 Apr.	4. Koala - Tarot Mobile App <i>Flutter, Firebase</i> - Developed the fortune telling tarot reading app using flutter and firebase - Coordinated with the 7 member-team during the design and development - Contributed as a full-stack developer to code some functional requirements - Then, took responsibility for deploying the app in the Google Play Store
2023 Aug. - 2023 Dec.	5. Ultimate Tic-Tac-Toe Website <i>Java (Spring), MySQL, Google Cloud</i> - Engaged with the stakeholder for the functional requirements - Designed and developed using Spring framework with the MySQL to store the player data - Worked as a backend developer for efficient data storing and for effective workflow on the frontend - Then, took responsibility for deploying the website on the Google Cloud

Achievements

1. **HCI 3rd Paperthon 2025 - Won 3rd prize**
 - Participated and won 3rd prize in the research paper competition held at Bangkok on 5 July, 2025
2. **Conference Paper Submission - at ECTI DAMT & NCON 2025**
 “Enhancing LMS Design through SUS Analysis and Biometric Usability Testing”
 - Authored and submitted to the 10th International Conference on Digital Arts, Media and Technology (DAMT) and 8th ECTI Northern Section Conference on Electrical, Electronics, Computer and Telecommunications Engineering (NCON) held at Nan from 29 January to 1 February, 2025
 - Conference proceedings were then submitted to IEEE Xplore
